LOCATION

Twenty 20 Architecture has produced this parking provision statement to support a planning application for a single-storey building on the site outlined below in red.

Location plan of the proposed site.

Aerial View of the proposed site

We can confirm that the parking at the site frontage is accessed via an existing dropped curb. There is parking space for 3 cars and these are retained and remain unaffected during and after the proposed works. There is a photo of the frontage that can be found below.
