COMMENTS:

Very concerned about the huge increase in traffic, congestion, pollution and noise in what is an already built up area. The amount of green space and countryside is being eroded. Flooding in the area and surrounding areas has got worse over the years this will only make it even worse. Concerns about huge increased demand of already stretched services ie RBH and little mention about GP surgeries in the plans as Brookside Group Practice has been running at over capacity for years. People who have lived here for years are now looking to move away how unfair is that?
