

PLANNING REF : 252430
PROPERTY ADDRESS : Wyvols House
: Basinstoke Road, Swallowfield, Berkshire
: RG7 1PU
SUBMITTED BY : Master charles sergeant
DATE SUBMITTED : 15/11/2025

COMMENTS:

I object to this planning. As a young student in school, I find that building more houses will create more traffic, making my daily commutes to my duties far more dangerous for me and others in a similar situation, especially as I am nowhere near the size of the cars on the road, meaning it is hard enough for people to spot me anyway on my bike. By increasing the local population, it will increase the traffic on the road, potentially putting my life and many others at risk.

Also, with the already insufficient public transport, such as the irregular buses, bringing more people to use that public transport will end in disaster, as the buses will not be able to keep up with the demand of the local townspeople, making me and many others have to find other transport, increasing car and van use which would be far less environmentally friendly. It would turn what is already a bad local transport system into an even worse one!

Another problem that will arise from the building is Trowes Lane. It will make the quiet road much more dangerous, as many pedestrians walk down that road multiple times a day to walk dogs, have leisurely

strolls, and more. It is not just walkers going down that lane; it is cyclists, children, and many other people.

With building on that field, there is another reason which I feel personally affects me and other children in the area: the demolition of animals' homes and nests, or in a nutshell, the destruction of the little nature that is still around us the nature which has not been destroyed already for the selfish over development, the nature which keeps our town scenic and peaceful. With the destruction of the

nature we are so very proud of, the destruction of the nature which we take pride in, the destruction of the nature which we can talk about, laugh about, and enjoy, we lose a piece of ourselves, not just a piece of land.

These are only some of the reasons I object to this planning, and if asked, I would be happy to share more problems that further buildings will cause.
