COMMENTS:

Sonning Parish Council has carefully considered this application and can find no reason to object. There are however the following concerns, which they would like see addressed.

1. Noise from the activity. It is understood that the level of noise from those playing the game can be very high at times. The proposal is in close

proximity to 3 dwellings, and the sound might easily affect their amenity. A noise assessment report would allay any concerns, particularly as the materials to be used are described as 'fabric, which would not appear to provide good sound insulation.

2. The access road is tarmac and prone to potholes. The proposal will require the use of large vehicles to deliver materials etc to the site, for the buildings and resurfacing the courts. The Parish Council would like reassurance that the cost of any repairs to the access road will be borne by the contractors or the Sports Club rather than the householders and Parish.
