Dear Ms Ellis,

THE FORMER POST OFFICE, 9 HIGH STREET, TWYFORD – DECOMMISSIONING OF TANK

Our clients' specialist contractors, Edwards Tank Removal Ltd yesterday excavated the diesel tank, cut off its top and cleaned out the interior to expose it.

The contractors tried to contact your office yesterday without success. Please let it be known that the tank is open for inspection but that builders do not feel they can safely leave it open for another 24 hours. We enclose a Gas Free Test Certificate supplied by Edwards.

Please let us know immediately should you wish a representative of your office to inspect.

Yours sincerely

Simon Eve

MEMORANDUM

From: Joanne Ellis, Environmental Health
To: Nicola Lake, Planning

My Ref: JPE/post4
Your Ref: 99/69731/F
C/2000/1303

Date: 12 May 2000

DETAILS TO COMPLY WITH CONDITION VII AND VIII OF CONSENT 99/69731/F
POST OFFICE 9 HIGH STREET TWYFORD

I have reviewed the information provided in reference to the above conditions and have the following comments: -

Condition VII – Soil Survey
As detailed in my memo dated 22nd October 1999 the decommissioning of the diesal tank by filling with concrete and capping off would be acceptable to comply with this condition. However, my understanding is that these works have not yet been carried out and the condition should not actually be discharged until the works have been satisfactorily completed.

Condition VIII – Noise Attenuation
The proposed sound proofing of the floors between flats, detailed on the plans submitted, is acceptable. However, some further information is required regarding protecting of the flats from road traffic noise. Details of the proposed secondary glazing should be submitted and acoustic ventilators will need to be installed, specifications of these ventilators should also be submitted for approval.

There may be a need to provide additional insulation measures within unit 1 (A3 use) but this can not be determined until the nature of that use is known.

Please forward these comments to the applicants for their information and should you or the applicant have any queries regarding these points please do not hesitate to contact me to discuss them.

TO: MR MICHAEL THORP

Dear Mr Thorp, The Old Turyford Post Office

I spoke to Nichola Lake this morning to enquire how the discharge of the conditions on the Planning Approval for the above were going; she has not yet had the opportunity to send/copy our proposals to Joanne Ellis on Environmental Health - Noise insulation + decontamination - or Neil Tribbeck on Highways about our parking proposals, or to the Conservation Officer about our shop-front.

Nichola is desperately over-worked; she told me she had 31 sites to visit last Friday + had had to postpone 4 others. I feel guilty pressing her on our rather minor matters (although of course they are crucial to us & very major), so I am writing to you to ask if you could provide her with some help. I think she is getting swamped by the sheer volume of what is being loaded on her so I am writing to you as the Team Leader to ask you to alleviate the situation.

Yours sincerely - Michael Shemilt

Dear Mr Thorp,

TWYFORD POST OFFICE, 9 HIGH STREET, TWYFORD

We refer to our letter of 6th April to which we have not received a reply. We understand that the Environmental Health Officer and Highways Officer have not received any communication from your office about the Conditions relevant to them.

Conditions (vii) and (viii), are matters which we understood you will be taking the advice of the Environmental Health Officer.

Condition (iv) would require the advice of the Highways Officer.

Contractors are on site and hoping to complete their work soon.

Please could you progress this matter as a matter of urgency and contact this office if you require further sets of plans.

Yours sincerely

Simon Eve

99/69731

6th April, 2000

By post and by fax 0118 974 6484

Dear Mr Thorp,

TWYFORD POST OFFICE, 9 HIGH STREET, TWYFORD

I refer to our conversation about three weeks ago when we discussed the discharge of the outstanding conditions under this permission. I am referring the matter to you because Miss Lake is currently on holiday and the matter is urgent.

We now have the Inspector's decision in relation to the planning application 99/69731/F. The Inspector has scheduled his revised conditions using lower case Roman numerals. I have reproduced them below for your convenience. Please could your Council discharge the conditions as a matter of urgency to enable the contractors on site to complete the work for early occupation by Century Galleries.

Condition No	Comment
(iv)	*"Prior to the occupation of the uses hereby approved, full details of on site car and lorry parking and turning spaces and storage of waste shall be submitted to and approved in writing by the local planning authority and implemented in full as approved. These details shall also include physical measures to prevent the use of any of the rear open area for parking by visitors and/or customers. These approved facilities shall thereafter be kept available at all times for the parking and manoeuvring of vehicles and the storage of waste as appropriate."* We enclose a layout Ref E1306/H2.93. We believe we have interpreted the Inspector's recommendations correctly. Signs shall be erected discouraging unauthorised access and identifying the occupiers of parking spaces No. 1-10.
(vi)	*"No development shall take place until samples of the materials to be used in the construction of the external surfaces of the building operations hereby permitted have been submitted to and approved in writing by the local planning authority. Development shall be carried out in accordance with the approved details."*

Continued...

(vi) cont. We enclose a copy of Andrew French's letter dated 7th January which enclosed samples and details of the proposed external materials. We understand that the relevant extracts from the catalogues are missing and you should refer back to Andrew French for further information.

(vii) *"Before the development hereby permitted commences on the site, a soil survey shall be undertaken and the results provided to the Local Planning Authority. The survey shall be taken at such points and to such depth as the local planning authority may stipulate. A scheme for decontamination of the site shall be submitted to and approved by the Local Planning Authority in writing and the scheme as approved shall be fully implemented and completed before any unit hereby permitted is first occupied."*
Three soil surveys were undertaken at the Council's request and the results were provided to your Planning and Environmental Officers. The Environmental Health Officer has confirmed that provided no excavation is to be carried out (ie for new building) the localised diesel spills do not constitute a hazard for occupation. The de-commissioning of the diesel tank under the yard is in hand.

(viii) *"Development shall not begin until a scheme for noise attenuation measures has been submitted to and approved in writing by the Local Planning Authority. All works that form part of the approved scheme shall be complete before the ground floor commercial premises hereby approved are occupied."*
The detailed scheme of works including noise insulation was submitted to and approved by your Council's Building Control Department. Copies were supplied to the Planning Officer on the 7th January and we enclose another set of drawings (Ref AGF.99.243.1,.2,.3 and .4.

Your confirmation that these conditions can be discharged will enable my clients to occupy.

Yours sincerely

Simon Eve
