COMMENTS:

The roads cannot cope with the volume of traffic. I can't even get out my road any more and a journey that should in theory takes me 5 minutes is tripled in time. Schools are over subscribed along with doctors and the council don't ever think of the consequences of adding all these houses without considering all of these factors. The council are getting greedy and impacting the entire area negatively. They promise everything, but provide no support to facilitate any of this. Along with the fact there is no housing shortage in Wokingham.
