COMMENTS:

We are due to move into 41 Old Bath Road on 12th Sept.
We have looked over the proposed plans next door and we are concerned with the size of the property and how it would impact us. Specifically, the rear of the house going beyond ours and balcony overlooking our garden would be privacy issue. We also have concerns regarding the light being blocked into our property.
With regards to parking we feel a single garage wouldn't be sufficient for the size property.
We are not against a new build but feel revised plans are unfortunately not in keeping with the road and plot size.
