APPRAISAL

Site Description:

This application relates to a two-storey semi-detached property in the major development location of Early.

Principle of Development: The National Planning Policy Framework has an underlying presumption in favour of sustainable development which is carried through to the local Development Plan. The Managing Development Delivery Local Plan Policy CC01 states that planning applications that accord with the policies in the Development Plan for Wokingham Borough will be approved without delay, unless material considerations indicate otherwise.

The site is located within settlement limits and as such the development should be acceptable providing that it complies with the principles stated in the Core Strategy. Policy CP3 of the Core Strategy states that development must be appropriate in terms of its scale of activity, mass, layout, built form, height, materials and character to the area in which it is located and must be of high quality design without detriment to the amenities of adjoining land uses and occupiers.

Character of the Area:

Core Strategy Policy CP3 states that planning permission will be granted for proposals that are of an appropriate scale of activity, mass, layout, built form, height, materials and character, together with a high quality of design without detriment to the amenities of adjoining land users, including open spaces or occupiers and their quality of life. Policy CP1 of the Core Strategy requires developments to maintain or enhance the high quality of the environment.

This development proposes to replace and slightly raise the existing rear conservatory lean-to style roof. This is a minor change that will not be seen from the public realm and nor have a negative impact on the character of the area.

Neighbouring Amenity:

Core Strategy Policy CP3 states that development proposals should not result in a detriment to the amenities of adjoining land users including open spaces or occupiers and their quality of life.

As this proposal is for a minor change to a single storey roof, there will be no negative impact on neighbouring amenity.

Community Infrastructure Levy (CIL): When planning permission is granted for a development that is CIL liable, the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing the assumption of liability notice is a statutory requirement to be

completed for all CIL liable applications.

The Public Sector Equality Duty (Equality Act 2010): In determining this application the Council is required to have due regard to its obligations under the Equality Act 2010. The key equalities protected characteristics include age, disability, gender, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief. There is no indication or evidence (including from consultation on the application) that persons with protected characteristics as identified by the Act have or will have different needs, experiences, issues and priorities in relation to this particular planning application and there would be no significant adverse impacts as a result of the development.

RECOMMENDATION
