

PLANNING REF : 260921
PROPERTY ADDRESS : 22 Harmar Close
: Wokingham, Berkshire
: RG401SG
SUBMITTED BY : Mrs Elzbieta Edwards
DATE SUBMITTED : 30/05/2026

COMMENTS:

We are writing regarding the proposed planning application to formally object to the plans proceeding in their current form.

The level of noise and disturbance caused by customers has become increasingly unacceptable. In addition to the disruption experienced by nearby residents, there have been repeated instances of litter and other waste being left behind. Customers have also caused damage to the fence at the rear of the car park, with vehicles striking the fence and rubbish being thrown over it onto our property.

These ongoing issues demonstrate a lack of effective management and give rise to serious concerns regarding the potential impact of any further development or expansion on the surrounding area.

Given the existing problems relating to excessive noise, littering, and damage to property, we do not believe it is appropriate for this planning proposal to proceed unless robust and enforceable measures are put in place to address these matters. The current situation is already having a detrimental effect on the local environment and the amenity of neighbouring residents.

We respectfully request that these concerns be given full and careful consideration as part of the planning process when determining this application.

Kind regards,
Elzbieta Edwards.
