COMMENTS:

I want to express my strong support for the planning application to establish a mosque in Winnersh. The growing Muslim community in this area, as well as in nearby Wokingham, would greatly benefit from an additional place of worship, as the nearest mosque is already overcrowded.

A new mosque in Winnersh would help accommodate the increasing number of worshippers, reducing congestion at existing facilities and making it easier for local residents to attend prayers and community events. Beyond serving as a place of worship, the mosque would also provide a welcoming space for educational, cultural, and charitable activities that benefit the wider community.
