COMMENTS:

As a resident round the corner, I want to formally object to the decision because I believe that the Reading road is already inundated with traffic which is already a strain on the locals as well as emergency services and adding the mosque will add a lot more. There is not adequate parking and I do not think it is fair for local businesses and residents to have to accommodate for the extra vehicles that will inevitably come and spill over into the community.

Another point that I would like to add is the added noise that this will bring to locals. I do not think it is fair that the locals have to put up with this.
