COMMENTS:

I wish to object to the outdoor space which has been built without permission and it would seem with no thought to those who are impacted by this building

I have relatives whose house is on Harmar close and I often visit. We appreciate the normal noise of a road nearby and a pub, but since the extra area has been built at the pub the outdoor space at my relatives has become an area which can not be enjoyed , as the language and noise which comes from the pub is not only excessive in volume but also the language is not something they should put up with especially when they have children. Everyone should be able to enjoy their garden/ house but this has been taken away from them by the building, they now have to go inside to avoid the noise and language.
