COMMENTS:

I wish to object to the retrospective planning permission submitted by Greene King Ltd on behalf of The Three Frogs.

I have relatives who live on Harmar Close and when visiting recently I was dismayed by the excess noise and the awful language that could be heard coming from the pub when we sat outside in the garden. I know you expect some noise when you live near a pub but this was

excessive and the language was not what you expect to have to put up with when sitting in your garden especially when you have children.

Needless to say we had no choice to go indoors and this will only get worse as the weather gets better. I also understand that the brewery had agreed to increase the height of the fence so that customers

cannot look into the garden as inappropriate comments have been made to one of the children but this has not happened.
