COMMENTS:

Objection to Planning Application 26117

I am objecting to the above application as I believe the site to be unsuitable for the proposed development.

Access is via a single-track road, additional traffic will risk the safety of other road users especially walkers, cyclists and horse riders.

There is no water supply or sewerage to the site, the access road is totally unsuitable for the large vehicles that will be necessary for the removal of waste.

Travel to work, supermarkets or major retail outlets would require a car journey, adding more traffic to the local roads.

There is a flood risk to the proposed properties and further disturbance to local water courses.

There are no local schools within safe walking distance. The local Medical Practice is already overstretched.

Public transport is very limited with no services on a Sunday.

Thank you
