COMMENTS:

I totally support all the objections that have been made for this objection.

I would make an additional point - the development of the Cove site this year has caused significant mental distress with the noise of building and heavy vehicles parked in the Street waiting to take their goods into the building site. The Croudace development, which is 4 times the size of Cove will be an extraordinary increase in mental

stress for a village of predominantly pensioners. Another 79 additional 'new builds' on top should not be allowed.
