COMMENTS:

I have recently moved into the area and have beautiful woodland/field to look out onto from the front of my house. The last thing I want to look at is more housing. This site is huge already. The traffic passing my house is already busy and Parcel 6 seems to have no entry points from Sheerlands. All the entry points are from Millet Road and Wheat Street - 140 houses and all of that traffic driving through the current development is ridiculous, next you'll be adding traffic lights to ease congestion. The noise from David Wilson and Cala building works is already pretty unbearable (my husband works nightshift and struggles to sleep with the noise during the day) - this new building work will literally be on our doorstep. Leave some greenland!!!!!!!!!!
