COMMENTS:

Because of time constraints due to family health matters, I feel unable to devote the necessary days of study to preparing my own detailed objections to the blatant over-development of the remaining open space within Wokingham Without. Nevertheless, I have carefully read all the objections put forward by others (up to date of writing 22 June 2026) and fully agree with them. In particular, I wish to associate my objection with the detailed evidence put forward by Mr David Sleight. I trust this approach is considered acceptable.
