COMMENTS:

This is an area of beauty, the view from these houses should not be obstructed. The land being proposed for building has also been vibrant farm land for years. The area also has a vibrant array of nature and wildlife living on and within this land. The roads surrounding this field cannot withstand heavy traffic leading to and from these new building prospects, causing light pollution, an environmental impact and noise pollution within this quiet and safe neighbourhood. Please keep our beautiful landscape intact and reduce the heavy impact already being imposed on our environment.
