Dear Ms Williams

Reconstruction of M4 interchange including works to approach roads, construction of new motorway bridges, footpaths, cycleways, footbridges, relocation and rebuilding of highway maintenance depot and police facility and landscape works.

Application 02/01138/REG3

Thankyou for consulting on this application and I apologise for the delay in responding with detailed comments. I write to confirm that Wokingham District Council raise no objection, in its role as Adjacent Highway Authority and Planning Authority.

The proposed works are primarily in Reading, with only a small section of land on the south-western side of the junction is within Wokingham. Accordingly, as lead authority the Reading Borough Council promoting the scheme in order to improve road safety, enhance journeys by various travel modes and also allow greater flexibility for the management of the junction itself. It is envisaged that the proposed works at junction 11, would be carried out at the same time as, the works proposed at the Mereoak junction by this Council. The Mereoak scheme is currently subject to a funding bid undertaken in July of this year with a decision expected in December. Both schemes are designed to manage congestion and facilitate the opportunity for an improved transport interchange vital to the quality of life for those who live and work in the area.

The two junction schemes are also designed to accommodate buses from the potential Park & Ride site (precise funding & timing to be determined) at Mereoak. These together with improvements coming forward for the A327 corridor (Met. Office site etc) will all combine cumulatively to provide a comprehensive and integrated solution to long-standing problems in the area as a whole. They are essential elements to the development and implementation of a local integrated transport strategy. In addition they are considered to be vital components to the next Local Plan period 2006-2016.

A strategic multi modal study for the Thames Valley area (TVMMS) is currently being carried out by consultants on behalf of the Government Office for the South East. However it is understood that the junction 11 improvements are unlikely to be incompatible with the outcome of the multi modal study and also does not need to await the outcome of the same.

On the basis that the schemes at Junction 11 and Mereoak would be carried out at the same time, it is essential that both projects are properly co-ordinated and managed so as to minimise the effect on the network, particularly with respect to local people and local

businesses. **To this end the Council, is keen to continue working in partnership with Reading and other stakeholders to agree and implement an overall project management and programme scheme in order to co-ordinate all of these roadworks envisaged for this area.**

Please contact Tanya Davies with any queries.

Yours faithfully

Dear Ms Williams

Reconstruction of M4 interchange including works to approach roads, construction of new motorway bridges, footpaths, cycleways, footbridges, relocation and rebuilding of highway maintenance depot and police facility and landscape works.

Application 02/01138/REG3

Thankyou for consulting on this application and I apologise for the delay in responding with detailed comments. I write to confirm that at the Development Control Committee on 13 November 2002 members resolved to;

1. Delegate Officers to GRANT PLANNING PERMISSION –Subject To Reading Borough Council Approving Their Application And No Intervention From The Secretary Of State As A Result Of Notification Under The Town & Country Planning (Development Plans And Consultations)(Departures) Directive 1999.

2. To confirm that Wokingham District Council raises no objections to 02/01138/ Reg3 (Reading's Application) (WDC Reference: CON/2002/7563).

In making this decision Members raised concerns regarding the need for integration of these proposals with other developments in the area and in referring the application to the Government Office have made the following comments;

Whilst realising that it would be unreasonable to link the improvements at Junction 11 by condition to developments at Mereoak roundabout and Mereoak Park and Ride. Members felt that it was essential that funding was secured for these schemes before works commenced at Junction 11, and that the three schemes were treated as a comprehensive package of improvements.

To this end the Council, is keen to continue working in partnership with Reading and other stakeholders to agree and implement an overall project management and programme scheme in order to co-ordinate all of these roadworks envisaged for this area.

Please contact Tanya Davies with any queries.

Yours faithfully

MEMORANDUM

FROM: Keith Rogers **MY REF**: KR7492

YOUR REF:

TO: Tanya Davies - Planning **DATE**: 29/10/02

PLANNING APPLICATION NO. F/2002/7492.
PROPOSED RECONSTRUCTION OF M4 J11 INTERCHANGE INCLUDING WORKS TO APPROACH ROADS, CONSTRUCTION OF MOTORWAY BRIDGES, FOOTBRIDGES, CYCLEWAYS, FOOTPATHS, RELOCATION & REBUILDING OF M4 MAINTENANCE DEPOT & POLICE FACILITY & LANDSCAPING WORKS.

These works are primarily in Reading, with only a small section of land on the south-western side of the junction is within Wokingham. Accordingly, as lead authority the Reading Borough Council promoting the scheme in order to improve road safety, enhance journeys by various travel modes and also allow greater flexibility for the management of the junction itself. It is envisaged that the proposed works at junction 11, would be carried out at the same time as, the works proposed at the Mereoak junction by this Council. The Mereoak scheme is currently subject to a funding bid undertaken in July of this year with a decision expected in December. Both schemes are designed to manage congestion and facilitate the opportunity for an improved transport interchange vital to the quality of life for those who live and work in the area.

The two junction schemes are also designed to accommodate buses from the potential Park & Ride site (precise funding & timing to be determined) at Mereoak. These together with improvements coming forward for the A327 corridor (Met. Office site etc) will all combine cumulatively to provide a comprehensive and integrated solution to long-standing problems in the area as a whole. They are essential elements to the development and implementation of a local integrated transport strategy. In addition they are considered to be vital components to the next Local Plan period 2006-2016.

A strategic multi modal study for the Thames Valley area (TVMMS) is currently being carried out by consultants on behalf of the Government Office for the South East. However it is understood that the junction 11 improvements are unlikely to be incompatible with the outcome of the multi modal study and also does not need to await the outcome of the same.

On the basis that the schemes at Junction 11 and Mereoak would be carried out at the same time, it is essential that both projects are properly co-ordinated and managed so as to minimise the effect on the network, particularly with respect to local people and local businesses. To this end the Council, as one of the local highway authorities for this area is working in partnership with Reading and other stakeholders to agree and implement an overall project management and programme scheme in order to co-ordinate all of these roadworks envisaged for this area.

The Shinfield Parish Council has made a number of comments in respect of the proposed M4 Junction 11 improvements and these have primarily been addressed by the consultants acting for Reading Borough Council, in this matter (PBA letter dated 23 October 2002).

No objection is raised to the proposal by this Council, as adjacent local highway authority.

In summary:

- Improvements at junction 11 do not have to await the outcome of the Thames Valley Multi Modal Study.
- The junction improvement is an important component in addressing the long-standing travel problems in this area.
- Congestion would be reduced and managed, vital to the quality of life for those living and working in the area.
- It would be sensible for the works to be carried out at the same time as the Council's Mereoak junction scheme.

- The Council is developing a co-ordinated approach with Reading and others in respect of the Junction 11 improvement and other roadworks in this area. This in order to minimise disruption etc.

Keith Rogers
Team Leader (Highway Development Control)

Dear Sir/Madam,

CONSULTATION ON A PLANNING APPLICATION REF: 02/01138/REG3/JW

The Council has received an application for Regulation 3 Planning Approval on property at: Junction 11 M4 Reading

O.S Grid Ref: Easting: 471582.000 Northing: 168660.000

Applicant: Reading Borough Council Transport Strategy

Proposal: Reconstruction of M4 interchange including works to approach roads, construction of new motorway bridges, footbridges, cycleways, footpaths, relocation and rebuilding of highway maintenance depot and polica facility and landscape works.

Application Number: 02/01138/REG3/JW

I enclose a copy of the application form and a site plan. Further details can be viewed at the Planning Reception on the Ground floor of the Civic Offices between 9.00am and 5.00pm, Monday to Friday. If this is not convenient, or you need to discuss this in more detail please contact me on the above number as soon as possible.

Any comments should be in writing and reach me by 26th September 2002. If I have not heard from you by this date, I will assume that you have no objections or comments to make and I will determine the application accordingly, If you think you will be unable to respond fully by this date, please let me know as soon as possible.

All comments received will be taken into consideration when a decision is made, and will be available for public inspection.

Yours faithfully

Julie Williams

To Whom It May Concern

Dear Consultee,

Proposed Junction Improvements to Junction 11 of the M4.

Consultation on a Planning Application Accompanied by ES.

I am writing to ask for your comments on the above planning application.

Two planning applications have been submitted as the proposed improvements to junction 11 straddle the administrative boundaries of both Reading Borough Council and Wokingham District Council.

To avoid unnecessary time and duplication and to conserve resources, Wokingham and Reading are undertaking a joint consultation exercise. You will be sent one copy of the application and are asked to make one response to Reading Borough Council covering all parts of the scheme. Reading Borough Council will then regularly forward copies to Wokingham District Council.

However, if you have any specific Wokingham queries please contact me on the telephone number above.

Thankyou for your co-operation.

Yours faithfully

Tanya Davies

2nd September 2002

Reading Borough Council
Planning Section
PO Box 17
Civic Centre
Reading RG1 7TD

Dear Sirs,

M4 JUNCTION 11 IMPROVEMENTS:
Planning Application

Peter Brett Associates are pleased to submit this full planning application, on behalf of Reading Borough Council Transport Strategy, for:

> *the reconstruction of M4 Junction 11 Interchange, including works to approach roads, construction of new motorway bridges, footbridges, cycleways, footpaths; relocation and rebuilding of highway maintenance depot and police facility and landscaping works.*

The proposal straddles the boundary between Reading and Wokingham. Identical planning applications are submitted to both planning authorities.

Scheme Components

The main development components of the scheme are:

- new 4 lane signalised gyratory
- 2 new motorway over-bridges (existing bridges retained for pedestrian/cycle and bus facilities)
- segregated public transport routes
- dedicated routes for pedestrians and cyclists including 4 new cycle pedestrian bridges
- hard and soft landscape proposals
- demolition of the existing coach depot (resulting in a net loss of floor space and vehicle movements); and

- relocation of the existing Thames Valley Police compound and Highway Agency Maintenance depot (requiring construction of replacement facilities and associated car parking).

In addition to the proposals relating to the above application, it is likely that the existing slip roads will be extended. These works would be within the existing highway boundary and therefore do not fall under this application. However, in order to ensure that a worse case scenario is assessed, these proposals have been fully addressed in the supporting Environmental Impact assessment

Full Planning Application

The planning application deals with two different types of development – engineering operations to reconstruct M4 Junction 11 and consequent redevelopment of adjacent sites.

The planning application comprises (5No copies enclosed) :

- Planning Application Forms Part 1 & 2
- Certificate C/Agricultural Holdings.
- Planning Application Drawings (as listed below)

Drawing Title	Drawing No.	Rev
Location Plan	11090/PA/001	-

- Fee in the sum of £5,280 (Note; this fee is payable to RBC only and will be paid by internal transfer)

Supporting Information

The application is also accompanied by the following supporting information:

- An Environmental Statement undertaken in accordance with the Town and Country Planning (Environmental Impact Assessment (EIA)) (England and Wales) Regulations 1999 (SI 99/293), in 3 Volumes.

  Volume 1 summarises the main environmental issues arising from Volume 2

  Volume 2 Technical Specialist Reports

  Volume 3 Non-Technical Summary
- Flood Risk Assessment Report in 2 Volumes

  Volume 1 Main text

  Volume 2 Drawings
- Traffic Assessment Report
- Summary of Engineering Detail Report

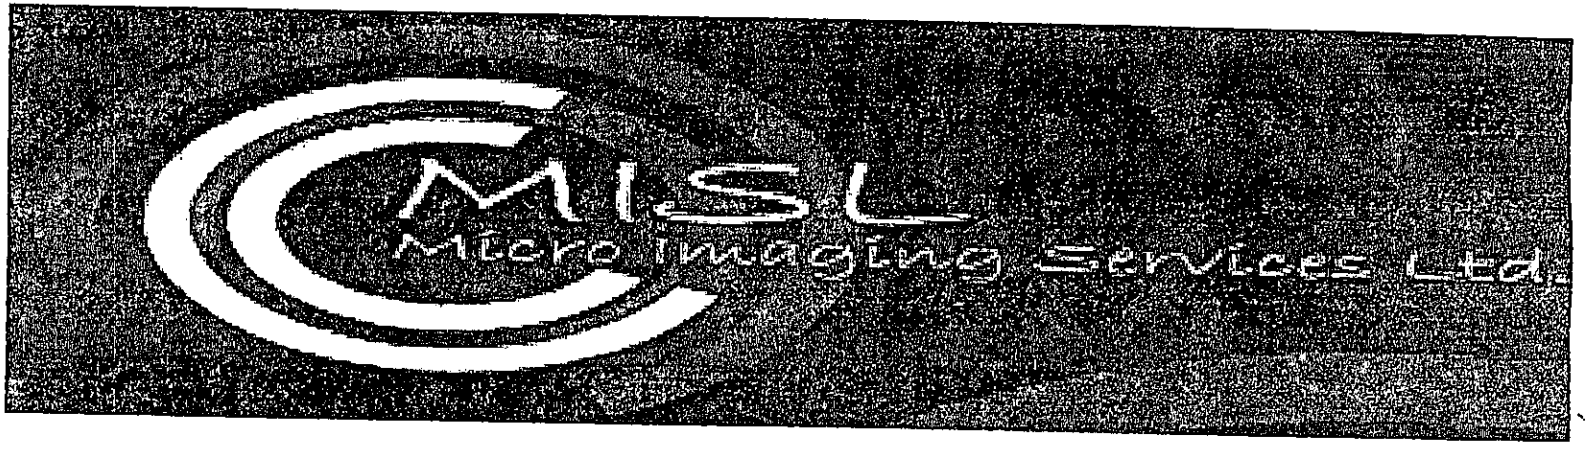

Please do not hesitate to contact Peter Brett Associates if you require any further information. All queries should be addressed to Rob Groves in the first instance.

Yours faithfully

3

Show the site outlined in red on the plans. Other land in the applicant's ownership or control must be shown outlined in blue.

Site Address or Location: M4 JUNCTION 11 AND ADJACENT LAND AT INTERSECTION OF A33/M4

4

What is the application for? Give brief details and state for what purpose the site and any buildings will be used.

Proposed Development: RECONSTRUCTION OF M4 INTERCHANGE, INCLUDING WORKS TO APPROACH ROADS, CONSTRUCTION OF NEW MOTORWAY BRIDGES, FOOTBRIDGES, CYCLEWAYS, FOOTPATHS; RELOCATION & REBUILDING OF HIGHWAY MAINTENANCE DEPOT & POLICE FACILITY AND LANDSCAPE WORKS

5

State the fee enclosed with this application. The current scale of fees is enclosed. If you believe a reduced fee or no fee is payable, say why.

£5280 TO BE PAID BY RBC INTERNAL TRANSFER

6

State the applicant's interest in the land (circle as appropriate)

Owner / Prospective Purchaser / Lessee / (specify): PART OWNER AND PROSPECTIVE PURCHASER OF ALL LAND OUTSIDE THE OWNERSHIP OF THE HIGHWAYS AGENCY.

7

Give the area in hectares or part of a hectare. Total Site Area: 21.42 hectares

8

If your application involves the provision of dwelling(s), then also give:

Net Site Area: N/A hectares (see notes)

PLANNING APPLICATION

PART 1

Application for permission to carry out development – Town and Country Planning Acts.

9

List all the plans and drawings / Plans/Drawings submitted with the application or enclose a separate schedule.

SEE ATTACHED LETTER.

10

Does the application involve any of the following? *(Tick all relevant boxes)*

- Change of Use ☐
- Demolition ☑
- Erection of New Building ☑
- Alteration or Extension ☐
- Engineering Operation ☑

11

What type of application is this? *(Tick one box only)*

- Outline Permission ☐
- Full Permission ☑
- Approval of Details/Reserved Matters ☐
- Renewal of Unimplemented Permission ☐
- Variation/Removal of Conditions ☐

Date of outline permission

Reference number

Date of permission to be renewed

Reference number

Condition number(s) to be varied/removed

Reason for variation/removal

12

If this is an outline application or an Approval of Reserved Matters, which details (if any) do you wish to be considered as part of this application? *(Tick all relevant boxes)*

- Access ☐
- Design ☐
- External Appearance ☐
- Layout ☐
- Means of Access ☐
- Landscaping ☐

13

What is the existing use of the land/building? *(e.g. residential, industrial etc. Include all uses if more than one. If the site is vacant, say so and also state its previous use and when it ceased.)*

MOTORWAY JUNCTION AND APPROACH ROADS, TOGETHER WITH ADJACENT AGRICULTURAL LAND; POLICE AND HIGHWAYS FACILITIES, COACH DEPOT

14

Does a Public Right Of Way *(Bridlepath, Footpath, BOAT, RUPP)* cross the site or run adjacent to the site or the proposed access? YES *If YES, show existing route(s) and any proposed alterations on the plans.*

Do the proposals require any diversions/extinguishments and/or creation of Rights of Way? YES

Reading

PLANNING APPLICATION

PART 1

Application for permission to carry out development – Town and Country Planning Acts.

15

Are there any trees on the site? YES

If Yes, show their location, species and those to be felled on the plans and indicate if any are to be felled.

If YES, are any to be felled? YES - REFER TO SUPPORTING LANDSCAPE DRAWINGS AND ENVIRONMENTAL STATEMENT. *If Yes, please supply arboricultural survey.*

16

Building materials etc. *Please state type and colour of materials for:*

A. External walls: TO BE DETERMINED BY CONDITION.

B. Roof:

C. Walls, fences, etc.:

17

How will surface water be disposed of? TO EXISTING SYSTEM.

18

How will foul sewage be disposed of? TO EXISTING SYSTEM.

To existing system?

If NO, please give details:

If YES, will there be any alterations to a non-mains drainage system?

If YES, give full details *(see notes)*: NO

9

What are the access arrangements?

(For a new or altered vehicular access, please show the position on the plans and indicate if any are to be felled.)

As existing: SEE ATTACHED PLANS

As proposed: SEE ATTACHED PLANS.

(For a widescale plan drawing is required)

20

What provision is being made for parking?

	Private Cars	Light Goods Vehicles	Motorcycles	Buses	Disabled	Commercials	
						Lorries	Others
Existing	0	0	0	0	0	0	0
Proposed	POLICE 57 HA 15	0 0	3 0	2 0	6 0	0	0
Total	72	0	3	2	6	0	0

PLANNING APPLICATION

PART 1

Application for permission to carry out development – Town and Country Planning Acts.

21

If this proposal involves residential development or the loss of residential units, complete this table.

N/A

22

How many of the proposed dwellings can be defined as sheltered? N/A

Sheltered housing is normally restricted to people above a certain age and includes a warden or similar assistance.

23

How many of the proposed dwellings can be defined as affordable? N/A

See note 10, page 4

24

Does the proposal involve the loss or gain of any non-residential building or use? YES / NO

If YES complete part 2 of the form

25

Has provision been made for the disabled *(see notes for applicants)* YES / NO

26

Does the proposal involve the extraction or processing of minerals, the disposal of mineral waste, or the the deposit or processing of refuse and waste materials? YES / NO

If YES please ask for and complete parts of the form

Permission under the Town and Country Planning Acts does not obviate the possible need to apply for Building Regulations approval.

If planning permission is granted, the development must be carried out strictly in accordance with the approved plans. Failure to do so could result in enforcement action being taken.

I hereby apply for permission in respect of the particulars described above and in the attached plans and drawings.

SIGNED	ON BEHALF OF	DATE
PETER BRETT ASSOCIATES	READING BOROUGH COUNCIL TRANSPORT STRATEGY.	2nd Sept 2002.

Before submitting the application check that it is complete, that all questions have been answered and that the site boundary and the new work are clearly shown in red on the plans. AN INCORRECT APPLICATION MAY BE RETURNED. Every application must be accompanied by the appropriate Article 7 Certificate. You must submit at least one form with your original signature. See NOTES TO HELP APPLICANTS
