COMMENTS:

I object to the removal of Condition 32 due to the disturbance driving through a housing estate during the night when people are sleeping/resting. The noise currently from the depots already using the road during the day is disruptive enough without having people's sleep and wellbeing impacted by 24 hour traffic. I see no reason why they can not exit from units 9 & 10 via the Headley Road Exit on the plan using main roads already utilised by distribution vehicles/lorries 24 hours a day. Condition 32 was known to the developers when consent was given for the planning, if they wanted vehicles to be moving between 2300 - 0700 they should have looked for alternative locations where housing was not impacted i.e. Winnersh Triangle, Thames Valley Park or even Green Park it's not like we are short of other locations on the M4 corridor.
