COMMENTS:

Building a new school here is a terrible idea, the current parking problems with fullbrook avenue will be made one thousand times worse than they already, the surrounding area isn't built to take the extra traffic and parking this new school would create, the current street parking on fullbrook avenue needs to be addressed first with double yellow lines to prevent people parking opposite other cars and blocking the road and people parking on corners and close to junctions creating blind spots for traffic and this has caused numerous near misses with vehicles. Also the speed people travel down fullbrook avenue will cause an issue
