COMMENTS:

I fully support the planning application for a change of use to create an Islamic education, worship, and community centre (Use Class F1 and F2). This development addresses a significant need within our rapidly expanding Muslim community, which currently lacks a dedicated facility in Winnersh and Wokingham. It's noteworthy that the area boasts over 18 churches, yet there is no designated Muslim place of worship. The proposed centre will consolidate dispersed community activities, enabling the effective organization of religious, educational, and social programs. Beyond serving the Muslim community, this centre will foster inclusivity, social cohesion, and interfaith dialogue, benefiting the entire town. I urge the council to approve this application to enhance community integration and address the clear demand for such a vital resource.
