COMMENTS:

At this rate we're not going to have any countryside left! I'm getting foxes and deer in my garden eating my plants. which I believe is happening as there's no other option for them due to their habitat being destroyed!! There is already so much congestion in the mornings from Shinfield Meadows and Shinfield Village that will only get worse from adding more houses! Shinfield is already over populated, surely we don't need anymore houses! The local people certainly don't want any more, only the greedy building companies whos only care is to get rich and who aren't affected by the aftermath when they go back to their mansions!!
