COMMENTS:

Please ?? no more houses. Wokingham used to be a nice place to live. It is so now over developed, that it no longer has the same feel, its really upsetting to see all the fields disappear one by one. There is also no point in building shops as I note that alot of the new units are still empty, so why build more? Do we need another co-op? It's starting to get a bit of a joke, I used to be proud of where I live now its just not nice
