COMMENTS:

Thank you for consulting Reading BC (Planning) on this planning application.

These smaller care homes are generally supported and appropriate to meeting needs in residential areas.

RBC asks that the following matters are considered for planning conditions to be attached to any permission (in the interests of the amenities of the area and sustainable travel):

- limiting the number of children
- limiting staff shift changeover to reasonable hours; and
- attention given to cycle parking as well as car parking for staff.
