COMMENTS:

I would like to register my objection to the planning application submitted by Speedy Fuels for a fuel depot between Charvil and Twyford.

This proposal has previously been reviewed and rejected, with nothing being materially different now to how it was before:

- This would introduce significant very heavy vehicles to already unsafe and in some sections small and local roads
- This will lead to accidents and potential fatalities
- The proposed location is near a watercourse. It is only a matter of time before this site would result in extreme environmental harm
- The proposed location is not particularly close to major distribution roads - e.g. the M4. This means operational traffic for the site including tankers will need to travel much further than otherwise required if a site closer to the motorway can be found

Please don't ignore the voices of local people.
