Planning for accommodation for looked after children

Statement made on 23 May 2023

Statement UIN HCWS795

Statement made by

Rachel Maclean

Minister of State for Housing and Planning

Conservative

Redditch

Commons

Statement

I, with the support of my Rt Hon colleague the Secretary of State for Education, wish to set out the Government's commitment to support the development of accommodation for looked after children, and its delivery through the planning system.

The planning system should not be a barrier to providing homes for the most vulnerable children in society. When care is the best choice for a child, it is important that the care system provides stable, loving homes close to children's communities. These need to be the right homes, in the right places with access to good schools and community support. It is not acceptable that some children are living far from where they would call home (without a clear child protection reason for this), separated from the people they know and love.

Today we use this joint statement to remind Local Planning Authorities that, as set out in paragraph 62 of the National Planning Policy Framework, local planning authorities should assess the size, type and tenure of housing needed for different groups in the community and reflect this in planning policies and decisions. Local planning authorities should consider whether it is appropriate to include accommodation for children in need of social services care as part of that assessment.

Local planning authorities should give due weight to and be supportive of applications, where appropriate, for all types of accommodation for looked after children in their area that reflect local needs and all parties in the development process should work together closely to facilitate the timely delivery of such vital accommodation for children across the country. It is important that

prospective applicants talk to local planning authorities about whether their service is needed in that locality, using the location assessment (a regulatory requirement and part of the Ofsted registration process set out in paragraph 15.1 of the Guide to the Children's Homes Regulations) to demonstrate this.

To support effective delivery, unitary authorities should work with commissioners to assess local need and closely engage to support applications, where appropriate, for accommodation for looked after children as part of the authority's statutory duties for looked after children. In two tier authorities, we expect local planning authorities to support these vital developments where appropriate, to ensure that children in need of accommodation are provided for in their communities.

Children's homes developments

Planning permission will not be required in all cases of development of children's homes, including for changes of use from dwelling houses in Class C3 of the Use Classes Order 1987 where the children's home remains within Class C3 or there is no material change of use to Class C2. An application to the local planning authority can be made for a lawful development certificate to confirm whether, on the facts of the case, the specific use is or would be lawful. Where a Certificate is issued, a planning application would not be required for the matters specified in the certificate.
