Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

In summary, the principle of the project accords with national and local policy and therefore is likely to be acceptable. In a post pre-application response the following was confirmed along with no ecology (bat) survey and that dead branches to the TPO tree did not require an application.

The loft conversion and dormers does not project above the existing ridge line and the dormers should be situated within the main roof whilst also being set back from both eaves line and the sides of the roof, thus complying with the BDG. The existing

property has a pitch roof and the proposed dormers may somewhat to a certain degree square of the roof. The dormer extensions would be set back from the front elevation which will make this squaring off effect less prominent. Furthermore, along Woodlands Avenue there are examples of different forms of side dormers such setting a precedence with such proposal not looking out of place.

Bedroom 4 window would overlook onto no.7 side dormer window which serves an en-suite (non-habitable room) and is obscured glazed, thus no overlooking concerns. The dormer on the other side would be for an en-suite and would be obscured glazed, thus no overlooking concerns onto no.3.

The outbuilding would be for an office, gym and shower room so would appear to be incidental or ancillary feature to the main dwelling.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

- ☐ Yes
- ☒ No
