COMMENTS:

I'm very concerned that this application jeopardises safety for pedestrian, cycle and vehicle traffic and also fundamentally and adversely will change the character of this area. I regularly walk or take my children cycling using the lovely paths from my address in

Woosehill, down past near Limmer Hill and into the area affected by the application. Currently it is a lovely, leafy, peaceful, and very authentically "Wokingham" area. There has been SO much development in Wokingham and so much of it has not honoured the character of our town, this new application definitely feels like another attack on much-loved local area. Lights, fenestration and access changes are all things I would strenuously object to.
