COMMENTS:

I totally object to this site being granted 24/7 access. The site should not be there full stop so the least you can do is grant us some peace from not making it 24/7.
It is huge and negatively impacts the area. The building work shakes our home-my husband has not been able to use his outdoor office as it's too noisy. My daughter's bedroom is right next door to the unit. She already has sleep problems and I foresee this getting worse if 24/7 access was given. It is such a shame that money has been prioritised over people's well being.
