COMMENTS:

I very very strongly object to this application as numerous centres to the planned one exist in Reading and other similar towns with 20/35 minutes away. Also we expect a Sikh Temple within the same location to be opening up shortly. This is bound to cause lots of traffic and congestion issues on the same days. Two similar Islamic centres within Reading area were opened opposite existing Sikh Centres ? Other existing businesses within the same area will also suffer various issues. Please give these some serious thought
