NOTIFICATION OF APPROVAL OF PLANNING PERMISSION

Application Number: 242066
Applicant Name: Klara Ascot Limited
Site Address: Ascot House, Finchampstead Road, Wokingham,
RG40 2NW
Proposal: Full application for the proposed raising and
modification of the roof of the existing building plus
the erection of an extension to form additional first,
second and third floor accommodation in order to
create 10 no. additional dwellings with car parking,
cycle parking, refuse stores, landscaping and
associated works.
Date of Decision: 10 July 2026

Wokingham Borough Council in pursuance of its powers under the above Acts and Regulations hereby **grants permission** for the above development to be carried out as stated in the application and the accompanying plans submitted to the Council subject to compliance with the following conditions, the reasons for which are specified hereunder.

Conditions and Reasons

1. Timescale - The development hereby permitted shall be begun before the expiration of three years from the date of this permission.
Reason: In pursuance of s.91 of the Town and Country Planning Act 1990 (as amended by s.51 of the Planning and Compulsory Purchase Act 2004).
2. Approved details - This permission is in respect of the submitted application plans and drawings named and numbered:
Proposed Block Plan 25.521_200 Rev P03
Proposed Block Topo 25.521_200.1 Rev P03
Parking Plan 25.521_200.2 Rev P02
Proposed Basement Plan 25.521_201 Rev P02

Proposed Ground Floor Plan 25.521_202 Rev P04
 Proposed First Floor Plan 25.521_203 Rev P04
 Proposed Second Floor Plan 25.521_204 Rev P03
 Proposed Third Floor Plan 25.521_205 Rev P03
 Proposed Roof Plan 25.521_206 Rev P03
 Proposed North Elevation 25.521_207 Rev P05
 Proposed West Elevation 25.521_208 Rev P04
 Proposed East Elevation 25.521_209 Rev P04
 Proposed South Elevation 25.521_210 Rev P04
 Proposed Context Elevations North & West 25.521_211 Rev P03

 Landscape Masterplan LLD31111-LAN-DWG-010_Rev 04
 105 PL2 LA 01 Rev B Proposed Cycle Store

Received by the local planning authority on 12/08/2024, 21/10/2024 and 13/03/2025.
 The development shall be carried out in accordance with the approved details unless other minor variations are agreed in writing after the date of this permission and before implementation with the Local Planning Authority.

Reason: For the avoidance of doubt and to ensure that the development is carried out in accordance with the application form and associated details hereby approved.

3. External materials - Prior to the commencement of any works to the existing building excluding demolition samples and details of the materials to be used in the construction of the external surfaces of the building/s shall have first been submitted to and approved in writing by the local planning authority. Development shall not be carried out other than in accordance with the so-approved details.

Reason: To ensure that the external appearance of the building is satisfactory.

Relevant policy: Core Strategy policies CP1 and CP3.

4. Hard and Soft Landscaping - Prior to the commencement of the development above first brick course, full details of both hard and soft landscape proposals shall be submitted to and approved in writing by the local planning authority. These details shall include, as appropriate, proposed finished floor levels or contours, means of enclosure, car parking layouts, other vehicle and pedestrian access and circulation areas, hard surfacing materials and minor artefacts and structure (e.g. furniture, play equipment, refuse or other storage units, signs, lighting, external services, etc). Soft landscaping details shall include planting plan, native landscaping specification (including cultivation and other operations associated with plant and grass

establishment), schedules of native plants, noting native species, planting sizes and proposed numbers/densities where appropriate, and implementation timetable. All hard and soft landscape works shall be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a timetable approved in writing by the local planning authority.

Any trees or plants which, within a period of five years after planting, are removed, die or become seriously damaged or defective, shall be replaced in the next planting season with others of species, size and number as originally approved and permanently retained.

Reason: In the interests of visual amenity. Relevant policy: Core Strategy policy CP3 and Managing Development Delivery Local Plan policies CC03 and TB21 (and TB06 for garden development).

5. Landscape management - Prior to first occupation of the units hereby approved, a landscape management plan, including long term design objectives, management responsibilities, timescales and maintenance schedules for all landscape areas, other than privately owned, domestic gardens, shall be submitted to and approved in writing by the local planning authority. The landscape management plan shall be carried out as approved.

Reason: In order to ensure that provision is made to allow satisfactory maintenance of the landscaping hereby approved. Relevant policy: Core Strategy policy CP3 and Managing Development Delivery Local Plan policies CC03 and TB21.

6. Ecological Lighting - Prior to first occupation of the units hereby approved, a lighting design strategy for biodiversity for the site shall be submitted to and approved in writing by the local planning authority. The strategy shall:

- a) identify those areas/features on site that are particularly sensitive for bats and birds and that are likely to cause disturbance in or around their breeding sites and resting places or along important routes used to access key areas of their territory, for example, for foraging; and
- b) show how and where external lighting will be installed (through the provision of appropriate lighting contour plans and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent the above species using their territory or having access to their breeding sites and resting places.

All external lighting shall be installed in accordance with the specifications and locations set out in the strategy, and these shall be maintained thereafter in accordance with the strategy. Under no circumstances should any other external lighting be installed without prior consent from the local planning authority.

Reason: To ensure that bats, a material consideration, are not adversely affected by the development.

7. LEMP- No development shall take place until a Landscape and Ecological Management Plan (LEMP) have been submitted to, and approved in writing by, the local planning authority. The LEMP shall include:

- Description and evaluation of features to be managed for a 30 year period pertaining to mandatory 10% on site net gain.
- Ecological trends and constraints on site that might influence management.
- Aims and objectives of management.
- Appropriate management options for achieving aims and objectives.
- Prescriptions for management actions.

- Preparation of a work schedule (including an annual work plan capable of being rolled forward over a five-year period).
- Details of the body or organization responsible for implementation of the plan.
- Ongoing monitoring and remedial measures.

The LEMP shall also include details of the legal and funding mechanism(s) by which the long-term implementation of the plan will be secured by the developer with the management body(ies) responsible for its delivery. The plan shall also set out (where the results from monitoring show that conservation aims and objectives of the LEMP are not being met) how contingencies and/or remedial action will be identified, agreed and implemented so that the development still delivers the fully functioning biodiversity objectives of the originally approved scheme.

The LEMP shall also include long term design objectives, management responsibilities, timescales and maintenance schedules for all landscape areas, other than privately owned, domestic amenity space (balconies). The approved plan will be implemented in accordance with the approved details prior to the first occupation of the building and permanently maintained thereafter.

Reason: To secure the maintenance of the Biodiversity Net Gain on-site provision for a minimum period of 30 years. Relevant policy: NPPF Section 15 (Conserving and Enhancing the Natural Environment).

8. Hours of work - No work relating to the development hereby approved, including works of demolition or preparation prior to building operations, shall take place other than between the hours of 08:00 and 18:00 Monday to Friday and 08:00 to 13:00 Saturdays and at no time on Sundays or Bank or National Holidays.

Reason: To protect the occupiers of neighbouring properties from noise and disturbance outside the permitted hours during the construction period. Relevant policy: Core Strategy policies CP1 and CP3 and Managing Development Delivery Local Plan policy CC06.

9. Parking and turning space to be provided - No part of any building(s) hereby permitted shall be occupied or used until the vehicle parking and turning spaces have been provided in accordance with the approved plans. The vehicle parking and turning spaces shall be retained and maintained in accordance with the approved details and the parking space shall remain available for the parking of vehicles at all times and the turning space shall not be used for any other purpose other than vehicle turning.

Reason: To provide adequate off-street vehicle parking and turning space and to allow vehicles to enter and leave the site in a forward gear in the interests of road safety and convenience and providing a functional, accessible and safe development and in the interests of amenity. Relevant policy: Core Strategy policies CP3 & CP6 and Managing Development Delivery Local Plan policy CC07.

10. Cycle parking details required - Prior to the occupation of the development hereby permitted details of secure and covered bicycle storage/ parking facilities for the occupants of [and visitors to] the development shall be submitted to and approved in writing by the local planning authority. The cycle storage/ parking shall be implemented in accordance with such details as may be approved before occupation of the development hereby permitted, and shall be permanently retained in the approved form for the parking of bicycles and used for no other purpose.

Reason: In order to ensure that secure weather-proof bicycle parking facilities are provided so as to encourage the use of sustainable modes of travel. Relevant policy: NPPF Section 9 (Sustainable Transport) and Core Strategy policies CP1, CP3 & CP6 and Managing Development Delivery Local Plan policy CC07.

11. Electric Vehicle Charging - Prior to the commencement of the development above first brick course, an Electric Vehicle Charging Strategy shall be submitted to, and approved in writing by the Local Planning Authority. This strategy shall include details relating to onsite electric vehicle charging infrastructure in accordance with Building Control Regulations Approved Document S and details of installation of charging points. The development shall be implemented in accordance with the agreed strategy thereafter.

Reason: In order to ensure that secure electric vehicle charging facilities are provided so as to encourage the use of sustainable modes of travel. Relevant policy: Core Strategy policies CP1, CP3 & CP6 and Managing Development Delivery Local Plan policy CC07.

12. Construction method statement – The construction of the proposed development is to be carried out in strict accordance with Construction Management Plan (Document 82054-03 Rev F) received by the LPA on 12/08/2024.

Reason: In the interests of highway safety & convenience and neighbour amenities. Relevant policy: Core Strategy policies CP3 & CP6.

13. Parking Management - Prior to the first occupation of the development, a Parking Management Strategy for the management of the parking arrangements shall be submitted to and approved in writing by the local planning authority. The submitted Parking Management Strategy shall include details of the management of all parking spaces.

Reason: To ensure satisfactory development in the interests of amenity and highway safety in accordance with Wokingham Borough Core Strategy Policies CP1, CP6, CP13 and CP21 and MDDL policies CC07 and TB20.

14. Plant/Machinery to be attenuated - All plant, machinery and equipment installed or operated in connection with the carrying out of this permission shall be so enclosed and/or attenuated that noise therefrom does not exceed at any time a level of 5dBA below the existing background noise level or 10dBA if there is a particular tonal quality, when measured at the nearest residential or noise sensitive property. Any recommended noise mitigation measures should be retained and maintained thereafter.

Reason: To ensure that no nuisance or disturbance is caused to the occupiers of properties. Relevant policy: NPPF Section 15 (Conserving and Enhancing the Natural Environment), Core Strategy policies CP1 and CP3 and Managing Development Delivery Local Plan policy CC06.

15. Carbon Emission Reduction - Prior to the commencement of development above first brick course, a final and deliverable scheme for achieving a 10 percent reduction in the predicted carbon emissions arising from operation of the development through the use of decentralised renewable and/or low carbon sources (as defined in the glossary of Planning Policy Statement: Planning and Climate Change (December 2007) or any subsequent version) shall be submitted to and approved in writing by the local planning authority.

The minimum 10 percent reduction shall be achieved in addition to the levels of reduction in carbon emissions required through the Building Regulations in force at the time of the submission of planning application. The approved scheme shall be implemented before the development is first occupied and shall remain operational for the lifetime of the development.

Reason: To ensure developments contribute to sustainable development. Relevant policy: NPPF, Core Strategy policy CP1, Managing Development Delivery Local Plan policy CC05 & the Sustainable Design and Construction Supplementary Planning Document.

16. Water Consumption - Prior to the commencement of development above first brick course, a scheme achieving a maximum domestic water consumption of 105L per capita per day for the residential portion of the scheme shall be submitted to and approved in writing by the local planning authority. The approved scheme shall be implemented before the development is first occupied and shall remain operational for the lifetime of the development.

Reason: To ensure developments contribute to sustainable development. Relevant policy: NPPF Section 14 (Meeting the Challenge of Climate Change, Flooding and Coastal Change), WBC Climate Emergency Action Plan, Core Strategy policy CP1, Managing Development Delivery Local Plan policy CC05 & the Sustainable Design and Construction Supplementary Planning Document.

17. Communications Plan - Development shall not commence until a Communications Plan has been submitted to and approved in writing by the Local Planning Authority. The Plan shall specify methods for communicating with local residents, including the creation of a liaison group to meet in accordance with an agreed schedule. The Plan shall be carried out as approved until the final completion of the development.

Reason: In order to minimise disturbance to neighbours during construction works in accordance with CP3 of the Core Strategy (2010).

18. Privacy Screens - Prior to first occupation of the development hereby permitted, the privacy screens detailed on the approved plans shall be installed and retained for the lifetime of the development.

Reason: In the interests of neighbouring amenity. Relevant Policy: CP1 and CP3 of the Core Strategy (2010).

Informatives

1. Please note that if the works carried out depart from the scope of this planning permission and a retrospective application under Section 73A is subsequently required, there may be CIL liability implications. The scope of any retrospective planning application will cover the chargeable development for the purposes of CIL, this will include past works that are unauthorised and any additional future works included within the planning permission. If the total floorspace of these works is over 100sqm, they will be liable to pay CIL. In such cases, no CIL exemption can be claimed, and payment will become due immediately as development for which planning permission is granted under a subsequent Section 73A or Section 177(1) application must be treated as commencing on the day any such planning permission is granted. Any demolished floorspace will not be able to be considered

for offsetting if the relevant building is not on the land on the day that the permission is granted.

2. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development.

3. This permission should be read in conjunction with the legal agreement under section 106 of the Town and Country Planning Act, the obligations in which relate to this development.

4. The applicant is reminded that, under the Conservation of Habitats and Species Regulations 2017 (as amended) and the Wildlife and Countryside Act 1981 (as amended), it is an offence to: deliberately capture, disturb, injure or kill great crested newts; damage or destroy a breeding or resting place; deliberately obstructing access to a resting or sheltering place. Planning consent for a development does not provide a defence against prosecution under these acts. Ponds, other water bodies and vegetation, such as grassland, scrub and woodland, and also brownfield sites, may support great crested newts. Where proposed activities might result in one or more of the above offences, it is possible to apply for a derogation licence from Natural England or opt into Wokingham Borough Council's District Licence. If a great crested newt is encountered during works, all works must cease until advice has been sought from Natural England, as failure to do so could result in prosecutable offences being committed.

5. The applicant is reminded that this approval is granted subject to conditions which must be complied with prior to the development starting on site. Commencement of the development without complying with the pre-commencement requirements may be outside the terms of this permission and liable to enforcement action. The information required should be formally submitted to the Council for consideration with the relevant fee. Once the details have been approved in writing the development should be carried out only in accordance with those details.

6. The applicant is reminded that should there be any change from the approved drawings during the build of the development this may require a fresh planning application if the changes differ materially from the approved details. Non-material changes may be formalised by way of an application under s.96A Town and Country Planning Act 1990.

7. Adequate precautions shall be taken during the construction period to prevent the deposit of mud and similar debris on adjacent highways. For further information contact the Highway Authority on tel.: 0118 9746000.

8. Whilst it would appear from the application that the proposed development is to be entirely within the curtilage of the application site, the granting of planning permission does not authorise you to gain access or carry out any works on, over or under your neighbour's land or property without first obtaining their consent, and does not obviate the need for compliance with the requirements of the Party Wall etc. Act 1996.

9. The development hereby permitted is liable to pay the Community Infrastructure Levy. The Liability Notice issued by Wokingham Borough Council will state the current chargeable amount. A revised Liability Notice will be issued if this amount changes. Anyone can formally assume liability to pay, but if no one does so then liability will rest with the landowner. There are certain legal requirements that must be complied with. For instance, whoever will pay the levy must submit an Assumption of Liability form and a Commencement Notice to Wokingham Borough Council prior to commencement of development, failure to do this will result in penalty surcharges being added. For more information see the Council's website - Community Infrastructure Levy advice page. Please submit all CIL forms and enquiries to developer.contributions@wokingham.gov.uk.

10. Fire service access should comply with B5 of ADB Volume 2 2019 with additional local requirements below under the Berkshire Act 1986: Fire service vehicles currently operated by Royal Berkshire Fire & Rescue Service exceed the requirements stated in the current edition of Approved Document B. The applicant should be made aware of the following amendments:- The minimum carrying capacity for a pumping appliance is 16 tonnes. The minimum carrying capacity for a high reach appliance is 26 tonnes. Structures such as bridges should have the full vehicle carrying capacity. Any structural fire precautions and all means of escape provision will have to satisfy Building Regulation requirement. These matters are administered by the local authority Building Control or approved inspectors, who you are advised to contact in this regard.

Signed

Justin Turvey
Head of Development Management - Place & Growth
Date: 10 July 2026

PLEASE READ THE NOTES ISSUED WITH THIS DECISION NOTICE BELOW

WOKINGHAM BOROUGH COUNCIL

TOWN AND COUNTRY PLANNING ACTS TOWN AND COUNTRY PLANNING (ENGLAND) 1990

Other statutory legislation: This decision notice relates to the above stated acts and regulations only and does not constitute approval under any other legislation.

The Town & Country Planning (Development Management Procedure) Order: This decision has been made in accordance with the requirements of the National Planning Policy Framework (NPPF) and in the requirement to work with the applicant in a positive and proactive manner.

Officer Report: An officer report explaining the decision will be available to view online.

Purchase notices: If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that the owner can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council which will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter I of Part VI of the Town and Country Planning Act 1990.

Appeals to the Secretary of State: If your application has been **refused** by the Borough Council or **granted subject to conditions** that you are not happy with, you have the right to appeal to the Planning Inspectorate (under Section 78 of the Town and Country Planning Act 1990). This must be within the timeframes set out below. Please note an extension of time for lodging an appeal is unlikely to be granted except in special circumstances.

12 weeks from the decision date above in the case of a refusal of a 'householder' application:
Being the refusal of an application for planning permission to alter or extend a house, or for works within the curtilage of a house; or,
Being the refusal to approve details submitted as required by a condition imposed on a permission granted for a householder application.

12 weeks from the decision date above in the case of a refusal of a 'minor commercial' application:
Being the refusal of an application for development of an existing building or part of a building currently in use for purposes in Use Classes A1, A2, A3, A4 and A5

where the proposal does not include a change of use, a change to the number of units, development that is not wholly at ground floor level and/or does not increase the gross internal area of the building.

6 months from the decision date above in the case of all other appeals made under s78(1) or s20 of the above Acts relating to a decision on a planning application or listed building/conservation area consent application.

6 months from the decision date above in the case of any appeal made under s78 (2) of the Act in respect of a failure to give a decision within the statutory period.

The Planning Inspectorate is an Executive Agency reporting to the Secretary of State for Communities and Local Government. The Inspectorate has an online appeals service with information and guidance about the process. You can submit [full application appeals](#) and [householder application appeals](#) with the new appeals service. [Other application types](#) should be submitted on the current appeal service. Alternatively, you can obtain a form from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN, 0303 444 5000 or through the [Inspectorate's website](#). Please note all documents will be published online by the Planning Inspectorate and therefore you should not include personal information you do not wish to be displayed in this way. This includes personal information of third parties.

In the event of a grant of planning permission, please note the following:

Community Infrastructure Levy (CIL): When planning permission is granted for a development that is CIL the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing 'Form 2', the assumption of liability notice, is a statutory requirement for the liable party(ies) to be completed for all CIL liable applications. Advice on how the Regulations may impact you and how you can properly discharge the relevant legal requirements including paying any relevant CIL charge that may be due is available on our [Community Infrastructure Levy advice \(wokingham.gov.uk\)](http://wokingham.gov.uk) website pages.

Discharge of Conditions: This consent may contain conditions that require further approval by submission of an application for approval of details reserved by condition and the appropriate fee. Application forms can be obtained for this purpose by visiting the [Planning Portal](#).

Street Naming and Numbering for new dwellings: If this notice relates to approval of new dwellings, please ensure that you contact the Council at least 16 weeks before the commencement on site to arrange for an address and post code to be allocated. Details can be obtained from streetnamingandnumbering@wokingham.gov.uk. Failure to contact the street naming and numbering department at least 16 weeks before commencement on site will result in the addressing and post code for the development being delayed.

Access to privately owned land: The applicant is reminded that this permission does not give right of entry to land not in the ownership of the applicant. Permission must be sought from any other landowner(s) if access is required.

Gas Mains and Services: Building over a gas main or service that is located within your site could cause damage to pipework or potential gas leaks within buildings. You should check for information relating to services within your site at [Home - LinesearchbeforeUdig \(lsbud.co.uk\)](http://lsbud.co.uk) and contact the Plant Protection Team at SGN on 0800 912 1722 or plantlocation@sgn.co.uk. If necessary, contact National Gas Transmission for high pressure gas pipelines on box.assetprotection@nationalgas.com or 0800 970 7000.

Building Regulations: The development subject to this permission may also require Building Regulation approval to ensure it is built to national safety, design, and environmental standards. The Council's Local Authority Building Control (LABC) service offers a full range of plan approval, inspection, and associated services through an ISO9001 nationally accredited team of qualified building surveyors. These surveyors work closely with the Council's planning department to ensure the appropriate construction of your build. To find out more visit the Council's [Building Control website](#) or call 0300 790 0580 to speak to a member of the team.

Fire Regulations: In accordance with the Berkshire Act 1986, when Building Regulation applications are submitted for building(s) or extensions, the Local Authority will reject the plans unless, after consultation with the fire authority, they are satisfied that the plans show the following:

- i) That there will be adequate means of access for the fire brigade to the building(s) or the extended building(s); and,
- ii) That the building(s) or extension(s) will not render inadequate any existing means of access for the fire brigade to a neighbouring building.

Biodiversity Net Gain: The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition “(the biodiversity gain condition)” that development may not begin unless:

- a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be Wokingham Borough Council.

Biodiversity Net Gain Exemptions and Transitional Arrangements: There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are set out in [paragraph 17 of Schedule 7A of the Town and Country Planning Act 1990](#) the [Biodiversity](#)

[Gain Requirements \(Exemptions\) Regulations 2024](#), and [The Environment Act 2021 \(Commencement No. 8 and Transitional Provisions\) Regulations 2024](#).

Biodiversity Net Gain Irreplaceable Habitat: If the onsite habitat includes irreplaceable habitat (within the meaning of [The Biodiversity Gain Requirements \(Irreplaceable Habitat\) Regulations 2024](#)) there are additional requirements. The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

Biodiversity Net Gain Section 73(2D): If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 (application to develop land without compliance with conditions previously attached) and a Biodiversity Gain Plan was approved in relation to the previous planning permission (“the earlier Biodiversity Gain Plan”) there are circumstances when the earlier Biodiversity Gain Plan is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted. Those circumstances are that the conditions subject to which the section 73 permission is granted:

- i. do not affect the post-development value of the onsite habitat as specified in the earlier Biodiversity Gain Plan, and
- ii. in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat the conditions do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier Biodiversity Gain Plan.

Biodiversity Net Gain Phase Development: If the permission which has been granted has the effect of requiring or permitting the development to proceed in phases, the modifications in respect of the biodiversity gain condition which are set out in Part 2 of [The Biodiversity Gain \(Town and Country Planning\) \(Modifications and Amendments\) \(England\) Regulations 2024](#) apply. In summary: Biodiversity gain plans are required to be submitted to, and approved by, the planning authority before development may be begun (the overall plan), and before each phase of development may be begun (phase plans).
