COMMENTS:

I object to this application.

It appears to be yet another thinly veiled attempt to gain access to the field behind the pub.

The objections remain the same to those presented on previous applications to develop this site. 232621,241556,231990

There is no need for a road change on the site, the existing entranceway is less likely to cause accidents than the proposed new one and why the need for a road to the field at all if this is about developing a "hotel" at the existing pub.

I suggest that the car park is used a great deal more than the attached report which suggests a maximum 50% occupancy , not in our experience.

Any increase in traffic to the existing entrance is challenging and further development of hotel rooms will only increase this exposure to accidents on Barkham Road.
