COMMENTS:

I am making a general observation that whatever potential work is carried out on this site the impact on Shinfield Park Estate must be minimal inc:-Pollution/Sound/ Traffic/building waste/dirty roads and that the residents must be shielded from these.

Work should also not be ongoing in the evenings or weekends.

The area is already very busy and when there is a problem on the M4 all the traffic is usually diverted off at J11 and sent via Shinfield/Lower Earley, so anything that will enhance congestion should be avoided.

Any future and ongoing use of this land must NOT have a worse effect locally such as more noise/pollution or increased traffic/increased footfall on Shinfield Park Estate.
