COMMENTS:

ok have to object to this - there have been so many houses built over the last few years and the impact this is having on traffic, getting appointments for doctors etc is too much.

And the fact you plan to build another primary school is rather laughable. What is really needed is a good secondary school like Bohunt in Arborfield. Oakbank is completely inadequate and i will not be sending my daughter there. So great, lets have some really good primary schools but nowhere to put these kids age 11+.

I believe every child in the wokingham borough (as an affluent area) should be entitled to be able to walk to a good secondary school - kids build strong relationships with fellow pupils this way. Instead for my eldest daughter, she has to travel to bohunt every day - we drive her which is putting more strain on the roads locally.

Someone need to look at this.
