4PA.

24th July 2024

Dear sirs,

I attended a meeting at the Memorial Hall in Finchampstead last night so that I could be appraised of the proposed planning permission for forty new houses off Longwater Lane Finchampstead.

I wish to object to this proposed development for the reasons listed below.

I have lived in this village for forty years development so far has been well thought out and has not been detrimental to the rural environment. I believe that this development will not comply with Wokingham Borough Councils' current policies on sustainable development. It will turn the area to a semi urban environment, with street lighting which will not be beneficial to the surrounding nature reserve population of wildlife, therefore changing the environment. The density is far higher than anywhere else in the village therefore not in keeping with the current character of the village.

Many people enjoy walking along the pathways beside the river Ackwater, to have a housing estate on the boundary will spoil the peaceful, tranquil walks.

Traffic on the surrounding roads, Lower Sandhurst Road and Ambarrow Lane will increase, leading to the risk of injury to horses and their riders. It is not possible for riders to keep away from these roads when access their stables.

All new residents will need to own at least one car as there is no public transport in the area. The junction at the old war memorial site is already dangerous with the current volume of traffic, to add more vehicles will result in more collisions.

It is impossible to make a timely GP appointment at the Finchampstead practice at present, new residents would add to wait time.

Is this development needed? There are already many new houses being built in the area, Gorse Ride and the Arborfield Garrison development.

Yours Faithfully,
Gina Kendall
