COMMENTS:

I strongly object to this development as it is obviously being done purely for profit and in no way for the benefit of the local community, by way of repeated attempts to gain permission. The site is one of natural importance, supporting many species of flora and fauna along with the flight path for bats. The introduction of any housing in this area will increase flood risk, put a extra strain on drainage infrastructure, foul and storm. The exit from the site discharges onto a national speed limit road, without the required visual splay. The local plan does not support it. There is no public transport provision in the area so there will be a potential for over 100 more cars on the roads. Increased strain on the local doctors surgery and schools. Put a stop to it now or they will just keep trying over and over again, just for profit.
