

## Supporting information for planning

Peri, Loddon Drive, Wargrave  
July 2025

### **Views from the road**

Please see below photographs showing the planting on the boundary. The existing house is not visible from the road.

The second photo shows the view from the front entrance gates. Again, the view is screened by new tree planting. The proposed extension will match the render of the existing body of the house and is raised on pillars above ground level.
