COMMENTS:

I am writing to object to the planning application 242263 for the proposal to increase the number of gypsy pitches at Wind In The Willows for the reasons listed below.

It is not in keeping with the rural character of the village.

The infrastructure and amenities are insufficient and not sustainable

The watershed created by the present structures is already adding to the flood waters.

Light pollution and the volume to vehicles Including commercial, are not suitable for a single

track lane with weight restrictions, that are posted.

The original application I understand was granted with conditions.

There is a likelihood that with as many pitched applied for this site may become commercial.

The cross road at Island Stone Lane and Nelson's Lane has been flooded for several days and

the road signposted as closed.

I would respectfully suggest the just consideration be given to all the objections.
