

Application 250111 - Proposal of an extension close to the boundary Line

Submitted by: Alan James & Janet James, Fairwater Drive, RG5 3JB

Comments:

We are strongly against our neighbours Extension to the back of an existing extension as follows:

We are against the new build because it will cause:

Loss of Light & View.

Overbearing Impact(Loss of View)

Any Noise as very close to the Boundary Line.

Building work Could Disturb our Fencing causing damage.

There is No Access for Building Materials, apart from over the Garage or through the House.

Wokingham Council asked if there were any trees in a neighbours garden, or adjoining their property but they ticked no but there is a 150 Foot High Maple Tree in adjoining house no.48. well within reach of the Proposed New Build.
