COMMENTS:

I am writing to express my strong objection to the proposed development of 40 new houses off of Longwater Road in Finchampstead.

Firstly, Having lived close by in Eversley all my life, I often go fishing at the nearby Blackwater river, just a few hundred meters away from this proposed site, and I know from experience this area has always been a massive flood risk, which has affected some houses on the more recent built Burnmoor Meadow estate.

Secondly, with the ever growing pressure on the existing infrastructure as it is, an influx of an additional 40 homes will only add to the already crowded schools, longer waiting times for medical and healthcare services.
Making the site for me seem totally unsustainable.
