COMMENTS:

The modifications to this planning proposal change nothing. The proposal does not follow the recommendations in the Finchampstead Local Plan, before or after the changes. The changes do not appear to consider the vast number of objections, and the changes seem to have been needed for other unforeseen limitations with the plot in my view. The proposal seems to have narrowed in dimension and slightly lengthened, moving it away from the southern border (for some reason). The reduction of dwellings from 40 to 38 is not an attempt to appease any objections but is simply a restriction imposed by the "new space". Please let this nonsense be stopped before any further time and money is wasted. Read the Local Plan and move on with an application that meets its requirements.
