COMMENTS:

I am writing this to object the proposal.
As many said we have plenty of such community centres in 5 mile radius. We don't need them in every corner.
Showcase cinema roundabout is so busy many times and this centre is only going to add the traffic woes.

There is no road crossing on Wokingham road. If this facility comes up then we will see majority of people and young kids crossing 40mph Wokingham road after parking on side roads. This will be hazardous for pedestrians and the car drivers.

Near by area will be flooded with parked cars as the facility don't have enough parking.
There will be frequent gathering and prayers in a day which will fundamentally change the quiet nature of the area.

I suggest council visit the existing facilities nearby to determine the parking and traffic situation in those areas before making a decision.
