COMMENTS:

This area has had a vast amount of new housing developments in the last few years. We only have 2 doctors surgeries in this area and an extra 53 families will only add to the waiting time for appointments. The roads are busy enough without the extra traffic this will bring, which also means more pollution. I believe the access road is very close to the property at North Toutley Hall and construction traffic will be very disruptive for the residents as well as unbearable noise.
