COMMENTS:

The plans will destroy open green space. Habitats. An area I've used for cycling and walking for the last 10 years. The loss of this open space is going to be detrimental to the environment, locals welfare and increase traffic dramatically. The area is already struggling due to mass development in shinfield and arbofield plus other parishes. Building on this land is not the best solution. Loss of land. Freedom to walk without having to go near the already overcrowded roads.
