COMMENTS:

The complete district around Earley, Woodley, Arborfield has a high area of flood plain.
The roads can barely cope with the rush hours traffic as it is, with regular flooding at the Showcase roundabout and Sindlesham roundabout (Tesla) re charging points a case in point.

Businesses are being affected now, the building of thousands of extra homes with a bridge will make no impact to alleviating an already over loaded area.
Constant roadworks in the area also adds greatly to the traffic delays and affects animal, vegetation and human well being.
We have trouble seeing family who only live in Wokingham, with flooding and sheer volume of traffic currently.
