COMMENTS:

Wokingham have had a lot of homes built over the last few years .
This has increased traffic. Regardless of the new bypass .
Pressure on Gp surgeries that are already unable to cope.
A local public footpath / byway that has been blocked off , through
a beautiful wildlife area . Which again is going to have a huge
affect on the diverse wildlife there . This is at the end of commons
road . Schools in the area will have more pressure.
I don't want to see this all have more strain put on it which it
will with so many more homes and cars . Wokingham council already
put a pollution monitor here that can be high . A pointless waste of
money if your going to allow more traffic !!!!
