COMMENTS:

We live at Harp Farm and have been neighbours of Mr. and Mrs. Drew for nearly 25 years. We are writing in support of this application, as it makes good use of the land and aligns with the surrounding land usage.

However, we have one condition regarding the access road for the new property. This access road runs immediately alongside the full length of our property, and we request that the existing six-foot fence

currently stopping halfway along our boundary be extended to the end of The Vale's driveway entrance before any construction begins. This would ensure adequate separation from the increased traffic using the driveway.
