COMMENTS:

As a local resident who uses this area for recreational walking, I would like to strongly object to this planning application of 40 dwellings in this area of beautiful countryside. The building of a large development is inappropriate for this site which is close to a proposed nature reserve and is important for wildlife.

The site is unsustainable for such a development, in terms of transport, shops, schools, and medical facilities. It will also put excessive demand on the local sewerage system which is already working at full capacity.

This development is out of character with the present housing stock and the rural nature of the site.

While the country does have a need for more housing, this development on this site is not the answer, and does not fit into the local housing plans.
