Land adjacent to School Road and Orchard Road, Hurst

Application for approval of reserved matters

Further objection submitted by: Andrew Dolinski

Address: 34 Martineau Lane, Hurst, RG10 0SF

Date: 30 April 2026

I wish to raise a **second objection** to the application for approval of reserved matters. My original objection is dated 26 January 2026.

I am in receipt of a card from the Council dated 15 April 2026 inviting me to participate in a second consultation regarding this application, occasioned by the council being in receipt of "revised plans and reports". However I confess that I have failed miserably in the councils "spot the difference competition" masquerading as a second consultation.

I simply lost the will to participate, given the lack of any explanation by the developer as to what purpose their new documentation serves.

Where is their meaningful document version control? Where are their informative and helpful explanations? The haphazard drip feed of new and amended documents makes it almost impossible for residents of Hurst to make sense of the contents or be able to make useful and valid comments.

I do not understand why the council has allowed this farce to continue. This Reserved Matters Planning Application should have been rejected at the validation stage as being inadequate, flawed and hopeless.

Enough is enough. The developer should stop wasting everyone's time.

Please refuse the application.
